THE FABRICA

SMITHVILLE HIGH SCHOOL

SMITHVILLE, OHIO

A year has passed within our school walls
- a year of study, new achievements and
companionship. In order to retain these
pleasant memories, we have attempted to
make this book for you to read and keep
in your memory chest. We have chosen as
our theme for this year's Fabrica, 'THE
ANVIL' our school emblem. The black-
smith molds different articles on his anvil,
likewise; our lives should be molded and
shaped in the halls of Smithville High!!

CLASS HISTORY

Now the history of the class of 1 and 50 of the high school of Smithville is in this wise:

In the beginning, in the 7 and 40th year of our Lord, there entered into the Land of Learning 6 and 50 seekers of knowledge. Some came up from the eighth grade, where they had been busily engaged in storing their minds with the honey of wisdom; and some were from other halls of instruction.

Now it so happened that this land to which they had come was ruled over by one, Forest Dale Burkholder, a professor of much wisdom; and at the beginning of the first year, he spoke unto them saying: "Go gather ye in a body, and organize yourselves into a class, that ye may gain in strength, and that your courage may wax hot!"

And as he spoke unto them, so it was done, and they chose their wisest ones to be their leaders. President, Tom Burkholder; Vice President, Bob Eby; Secretary, Alice Schrock; Treasurer, Irene Zimmerly; Student Council, Marilyn Murray and Bill Miller; Reporter, Joann Beaverson; Sergeant of Arms, Ralph Saurers.

And it came to pass that they were received with malicious glee in this land by a certain band of wild beings who were called "Sophomores," and who because of their fierce taste for freshman blood, did pounce upon them daily and nightly, and did cause them to suffer great things, and to say in their hearts: "Behold, blessed be the name of education, for because of it we have endured great torments, both of the body and the mind. Verily have we been martyrs to its great and noble cause."

CHAPTER II

Now it came to pass at the beginning of the second year that a band of youths did come up from the lower land, in the new dignity of their promotion, remembered the day of their own greenness and as the Sophomores of their days had done unto them even so did they do unto these Freshmen, and did show no mercy unto their sufferings, and no heed unto their lamentations until all were bruised and full of much sorrow.

And there came up a cry for new leaders before they would journey farther into this land. Chosen from among the tribe were leaders of great strength and courage: President, Tom Burkholder; Vice President, Alice Schrock; Secretary, Irene Zimmerly; Treasurer, Phyllis Ramseyer; Student Council, Marilyn Murray and Danny Burkey; Reporter, Ruth Zook; Sergeant of Arms, Bill Bland.

And it came to pass that their apparell became tattered and torn. And it was said that they should be covered with a bright and beautiful garment of maroon and white.

As the laborious year came to an end and their minds were overflowing with much knowledge and wisdom from the instructors, they decided it necessary for a rest so as to be fully prepared for their journey into the next higher land.

CHAPTER III

And the time came that they should once again be gathered together so as to prepare for their onward journey. Again they chose leaders of high standing. President, Alice Schrock; Vice President, Bob Eby; Secretary, Pat Dietrick; Treasurer, Phyl Ramseyer; Student Council, Tom Burkholder and Lois Conrad; Reporter, Ruth Zook; Sergeant of Arms, Bill Bland; Social Chairmen, Danny Berkey and Irene Zimmerly.

Now it came to pass as their pride grew to a great bigness within them, that the class began to wish for golden rings to decorate their hands, and many messages were sent to the big cities and all the towns around for samples of their fine jewelry; and at last after much considering and reconsidering, the class professed itself to be satisfied with its choice, and rings were purchased with which they rested well content.

And, behold, it did likewise come to pass, at about this same time, that the class did aspire to dramatic honors, and did present to the people a great and wonderful play, wherein each should act what he was not; and they did choose as a sacrifice, "Double Exposure," directed by Miss Porter. And lo! again the awful deed was done: and the multitude did cry out in their hearts, "Heaven forgive them for they know not what they do!" and with their lips, "How grand and wonderful this thing which ye have done!" and the heads of the class did become swelled to their fullest capacity at the praise they did receive.

Now it came to pass that they were each and all seized with a strange infirmity, which did cause them to act with much fierceness and strangeness of manner, and to grapple and wrestle with their fellowmen in much rage and

CLASS HISTORY

seeming ferocity. Wise men were called to look upon them who did examine them with care and pain, and did finally pronounce the infirmity of flag-flight. This did assure the frightened leaders that the malady while the needs must be contagious, and likewise sometimes fatal, was yet a necessary evil, and one that even the wisemen knew not the way to cure. So, with many anxious fears, and dire farebodings, did the instructors allow the disease to run its natural course, and lo, none were killed, and few were seriously injured, whereat there was great rejoicing throughout the land.

And the class of 50 did force the class of one and fifty to prepare a feast in their honor before their departure from the Land of Learning. And so feeling great in heart and of a good nature they did yield to the request and did grant them their wish. Now they did look back to their forefathers from Holland for the theme. And men of high standing in the land did speak unto the people words of wisdom, and of cheer, and of encouragement and did in many feeling words, say farewell to the class that was departing. And when the guests did at last depart from the festivities, as a Prodigal Son with his associates, they did journey from the Smithville Inn to unknown parts which unto this day have never been revealed!

CHAPTER IV

Now this, the fourth year in the history of this great and wonderful class of one and fifty has been one of much hard labor, and but little resting by the wayside; for preparations have been making ready for them to take their final departure from the land with the following leaders being selected: President, Bill Miller; Vice President, Alice Schrock; Secretary, Arlene Case; Treasurer, Marilyn Murray; Student Council, Irene Zimmerly and Danny Burkey; Reporter, Ruth Zook; Sergeant of Arms, Pat Dietrick; Student Council President, Tom Burkholder; Social Chairmen, Ginny Holderman and Bob Eby.

And behold certain members of the tribe were stricken with dreams of fame and fortune. Seeing how they were possessed with the spirit of dramatics, Mrs. Murray directed the hilarious comedy, "Strickly Formal." And the on lookers, being greatly pleased, did shower many fine words of praise upon the heads of the actors and the reveries of the class were fulfilled.

And the crowd upon gazing across the fields did find much beauty in the flowers, and chose their own class flower to be the yellow rose.

And it came to pass that a great shout did go up from the throats of the class of one and fifty for words of guidance and the words "We build the ladder by which we rise", did find favor with the members of the tribe, and were adopted as their motto.

Now the class of one and fifty has gone far in their journey and did receive much praise and offerings from those behind who did attempt the trail. As they had laid a great feast before their elders in their year even so did the Junior Class do unto them.

For many moons past they were filled with laughter at programs from the lower lands and in their hearts some did say, "It is better to give than to receive." So they, out of generosity, did give to them an assembly.

And it was prophesied that this class would follow tradition and go to those great and wonderful cities of Washington and New York: All through the journey each and all made a sacrifice of silver and labor that which was spoken by the prophets might be fulfilled.

Now it came to pass that the hour of commencement did come when each shall reap whatsoever he soweth. This was the journey's end for which many had strived but wisemen did speak unto them saying, "Verily, verily I say unto you, that broad is the gate and wide is the way that leadeth to the High School and many there be that go in thereat; but straight is the gate, and narrow is the way that leadeth to graduation, and few there be that find it." And each Senior, on that night of departure, rose and walked from the High School a sadder and wiser man."

Four years hath the class of one and fifty sojourned in the land of learning, and gathered in large portions the fruits from the Tree of Knowledge. But it is written, "In the day when ye shall have eaten of all these fruits; ye shall surely be driven forth from the land!" Now I say unto you, they must depart thence, to go each a separate way, to lands they know not of, to do, they know not what.

"But let us not be weary in well doing for in due season we shall reap if we faint not."

Alice Schrock and Eugene Huffman

CLASS WILL

We, the Class of 1951, about to pass out of this sphere of education, in full possession of a crammed mind, well-trained memory, and almost superhuman understanding, hereby revoking and making void all former wills or promises by us at any time heretofore made, or mishap, carelessly spoken, one to the other, as the thoughtless wish of an idle hour.

ARTICLE I

We give and bequeath to our beloved Superintendent, Prof. F. D. Burkholder our sincere affection, our deepest reverence, our heartiest gratitude, and the whole unlimited wealth of our eternal memory. In an attempt at partial payment for all that he has done for us during our long years at Smithville High.

Bob Dilyard, Barbara Parsons

CLASS PROPHECY

The year is 1965, the place, the Moon. The occasion, the dedication of the first service station for interplanetary and semi-interplanetary ships.

As we stand beside the proprietor, Bill Miller and watch the space ships arrive and make their backward descent to the specially built landing platform, we notice a man acting very strangely. It is very difficult to recognize anyone at a distance in their pressurized outer atmosphere suits so we make contact with him on our walkie talkie radios. It turns out to be Dave Bishop, the owner of a chain of Bishop Diners on earth looking for a likely location for the first Bishop Diner on the moon. Following Dave out of the ship are Bill Bland and Janet Audet. Bill is now a painless dentist and Janet, his assistant, is now the one who makes his denistry painless. Another figure emerges from the ship and over the walkie talkie we recognize the lilting voice of Ilene Badertscher. We are informed that she is the hostess on the regular Mars to Mercury to Venus run of the Eby Space Ship Lines.

Another space ship has just settled gently onto the platform and we promptly tune in our radios to welcome them to the new enterprise. The two figures springing towards us prove to be the two most prominent dairy farmers in the Smithville area, Lewis Baab and Tom Perret. They inform us that they are looking over the prospect of establishing a dairy farm on the Moon. The prospects, they admit don't look as good as they had hoped. "However," says Lewis, "If we can produce a strain of cattle that will live here we'll be all set." That sounds logical you must admit. Danny Burkey and Bill Burkholder have just emerged from the same plane. Danny, a Congressman from Ohio, is the founder of the Burkey plan to wipe out Communism. Because of this bill, Communism is practically extinct. The method of elimination was very simple, he gave each person $10 and made Capitalists of them. Bill is now a test driver for the new atomic powered Fords. It they can take the beating Bill gives them they have to be good.

Suddenly something lands in the midst of the group with a great deal of commotion knocking several of us down. The object turns out to be Ted Hartsough in a rather bedragled condition. After spitting out a sizable mouthful of lunar dust he informs us, in answer to our perplexity, that while experimenting with atomic fuels in his laboratory he got a bad "mix". "What some people won't do to save rocket fare!" wisecracks someone, and all eyes turn to behold Bob Dilyard who has arrived in his convertable, unnoticed in the excitement . Bob works part time at his business, the "You take it apart, we guess what it is" garage in Smithville. The rest of his time he devotes to being a casanova and playboy around the nightspots of Holmesville and Millersburg.

Another space ship suddenly comes into view doing quite a few maneuvers that are not recommended if you would live a long and prosperous life and die a happy death. We all run for a nearby crater. However our precautions were not necessary for the ship lands safely enough. As we peek over the edge of the crater we can see more figures climbing to the ground. Tuning our radios in to pick them up we hear a silly giggle that anyone acquainted with the class of '51 knows as that of Bettie Mizer. We are soon told she is the first rocket pilot in the Army Rocket Corps. Bettie is accompanied by Katie Hoff, the former Virginia Mosier, Evelyn Odenkirk, Evelyn Zuercher and Martha Richards. Katie is now secretary to the President of the United States, having worked up quickly from a small office job in Smithville. Virginia and her husband now live in one of the better residential areas of Smithville along with certain other small individuals with whom we are not acquainted, midgets no doubt. Evelyn Odenkirk, Evelyn Zuercher, and Martha Richards are now the head cooks at Smithville High School and are turning out meals the way Mrs. Dintamin use to.

Now we feel a vibration under our feet and we again turn our eyes to the landing platform where we see an Eby Super Strato Liner in the process of landing. Many more from our class descend, first we see Ray Aspinall, the pastor of the Smithville Brethren Church. Right behind him is one of his most faithful members, Lynn Murray. Correction,-she is now the minister's wife.

The manager of the Smithville Inn now strolls up in the person of Roy Bowman. Under his expert management the Inn has grown to quite sizable proportions, with Inns in 46 states and Alaska. Clyde Murphy walks around the corner now and slaps us heartily on the back. Clyde is the star left fielder for the Cleveland Indians, batting an average of .421. Incidentally he has donated his 38 Chiv' to the Smithstonian Institute, now driving a jet propelled Cadillac.

Upon investigation of two figures racing around the perimeter of the crater to our left we find our two track stars Eugene Huffman and Elvin Mast. While stopping to turn up their oxygen we go over to extend a welcome. Eugene a professor of a large eastern university, has gained world fame and recognition for being the first to find a fool proof method of tri-secting an angle. Elvin informs us that he is now a rich farmer from the south. He owns over half of Holmes County and several towns, Millersburg and Berlin included.

Another plane lands and out steps the world famous artist Arlene Case. Arlene's pictures have won fame and high honors in every art exhibit in the world. Following Arlene comes the much lauded movie dancer Joan Beaverson and her expert press agent Esther Shamp. Another space suit clad figure emerges now and a closer look

CLASS PROPHECY

tells us that it is Virginia Holderman, now proprietor of the concessions at the Cleveland Stadium. Every one agrees the eats are much better there now. Following her come two more figures identified as Dr. Jean Shisler and Head Nurse Ruth Zook. Jean and Ruth now run the Smithville clinic. Their motto is "If we can't cure you, nobody can."

Edna Showalter and Barbara Parsons are discovered walking toward us now. We find that they now are owners of a beauty shoppe in the heart of downtown Smithville. Two more figures clamber down from the space ship and in due time they are identified as Jim Troyer and Lester Conrad. Jim now is head of Troyer Bros. Mfg. Co. They specialize in atomic potatoe slicers and graders, and jet powered conveyors. Lester, a leading farmer in the community was the first to try out his atomic slicer. The Potatoes grew so big two were a truckload. However, the conveyor was not so successful as it ignited Lester's strawstack while they were threshing Two more figures walk toward us now, one playfully pokes the other in the ribs. We are almost deafened by the earsplitting shriek that follows. Who else can that be but Patsy Dietrick? Pat is now a famous interior decorator. Right now she says, "I'd like to decorate my interior with one of Bishop's good hamburgers."

It now is quite late and it is decided to go into the spacious building for refreshments.

As we turn toward the building we can see its massive outlines by the light of the full earth which. by the way, is somewhat brighter than the full moon.

A little to our right we see a figure walking backwards from the building. We stop to watch and wonder a minute when suddenly he topples backward into a small crater that we hadn't noticed. We of course run over to help the poor fellow out of his predicament and who should it be but Tom Burkholder. Tom, we discover, is the famous architect who designed the station building. When asked about his strange actions, Tom explains, "I was just stepping back to admire my work."

After a hearty laugh we proceed to the building. Once inside, Bill informs us that we can take off our space suits as there are oxygen generators set up in the walls to supply us with an atmosphere similar to that of the earth. Once rid of these bulky contrivances, we discover several members that we have overlooked in the excitement outside.

Among these are Irene Zimmerly and Lois Conrad. Irene and Lois have quite an unusual occupation for two young ladies; namely, that of woman detectives. "I guess we just like to live dangerously", says Lois modestly.

Alice Schrock is just back from the Belgian Congo, someone tells us, and sure enough over on a corner talking to the professional skater and Roller Derby Champion, Twila Wiles and Smithville High's new Latin, Literature, and Speech teacher, Phyllis Ramseyer, is Alice with a coat of tan that anyone would envy. We are soon informed that Alice has been doing missionary work in the Congo for quite some time. "If it can give you a coat of tan like that", says someone behind us "I'm for it"! "You can't get that brown working in a green house", says Jean Hartzler, who ought to know because she is now manager of the Yoder's Greenhouse. With Jean is the only Cowgirl in the class of "51", Ella Mae Beck. Ella Mae left Moser's Drug Store and went west soon after graduation. She now owns the finest Dude Ranch in Arizona. We like to spend our vacations at Ella Mae's ranch. That just goes to show what good luck and success will do for a person.

There is a message coming over the ultra-short-wave radio now. It is a greeting from Brigadier General, Don Holderman. Don was not able to be with us in person because of pressing military matters.

Suddenly from a darkened corridor comes the mournful strains of "Frankie and Johnny". Everyone is startled, and two or three head for the out-of doors forgetting that space suits are necessary on the Moon. Someone snaps on a light to reveal Don Sheets. Don is now a hillbilly radio and recording artist. Don admits, however, that he only goes in for the money and fun he gets out of it. We finally persuade him to stop, however, and those who have gone out without their space suits are brought back and revived. We are again just one big happy family.

At a call from the dining hall, there is a mild stampede for the refreshments which consist mainly of food. During the meal Bill brings the portable transmitting and receiving set into the room. After a bit of fidgeting and twidling with the dials, contact is made with the home of Mrs. Alta Murray, our former sponsor. Mrs. Murray, we are sorry to say, was incapacitated when an irresistable force in the form of her new Atomic 888 Oldsmobile met up with an immovable object; namely, the corner of the Wayne Co. National Bank. You have to watch these atomic engines. Mrs. Murray, we learn, retired some time ago from teaching and doesn't have much to do except "just horse around". Personally, we think this is a master understatement because she is quite active in everything that comes along, and helps direct the Community Theater besides.

But our grand time is cut short by the realization that we must be getting back to Earth and once more take up our humdrum existence as "earthlings". So we don our space suits, bid a farewell to Bill, board our ships, and head for home. Taking a fond, last look at our fading, lunar satelite, each one of us makes a secret vow to return as soon as possible.

"Three year of wear, but we're almost there!" Being juniors has given us a new dignity. There was a definite interest in activities or we remained on the "outer fringe" and by occasional bout with the books, we merely hung on.

We entered the halls of Smithville High with an enrollment of forty-eight, and a new class advisor, Mr. Wheeler. These capable officers were elected:

President	Don Dravenstott
Vice-President	Gene Caskey
Secretary	Martha Miller
Treasurer	Steve Burington
Student Council	Ruth Donaldson
Student Council	Roger Johnson
Reporter	Glenn Zimmerly
Sgt. at Arms	Tom Bowman

We had many special events. Of course we will never forget the Junior class play, March 27, and the Junior-Senior Banquet, May 12.

We rolled in the money by having a carnival on January 29th. Also in January we received our class rings which made us feel very sophisticated and poor!

As a progressive class, we look forward to next fall.

SOPHOMORES

"Have you seen those flashy black and gold sweaters?" They belong to the class of '53'. Currently at the high school, the Sophs are known to have a superior look when in the presence of Freshmen and a rather meek look when a Senior passes. That they are gaining status is readily evident by the number of positions of leadership that members of their class are holding.

They have graduated from the "Green Freshman" stage to the "Silly Sophomore" classification. Since this is purely a universal title for Sophomores throughout the land, if at times they seem to have lived up to it, it is merely because they have feared to break tradition.

The school year, for the Sophs, was properly ushered in, for they capably initiated the Freshmen. The class has been very active this year with participation in speech, music, and athletic activities. The Reserve Cheerleaders were also from the Sophomore class.

Looking forward to next year, they eagerly anticipate the thrill of being upperclassmen!

The class of "54" started the school year with a new sponsor, Mr. Portman. The Madisonburg pupils entered our class this year which gave us a total of 44 members.

Our Assembly was given on April 18.

At the beginning of the school year for 1950-51 a large group of youngsters, forty-five to be exact, walked through the portals of Smithville High. Some of us made ourselves at home, others were meek and afraid of what was in store for them. Perhaps most of us were afraid of getting lost.

In the first week of school, the class spent most of its time being orientated rules, regulations, schedules, finding of class rooms, and getting into our supervisors hair. This week was the hardest for us.

The thing we enjoyed the most was the method of changing classes and spending time in other rooms. This breaks the monotony of daily routine.

Our next lesson was in form of a class meeting. Here we learned the proper procedure. As the result of the meeting, we found Roger Ramseyer, President; Martha Hutchison, Vice President; Maxine Sheets, Sec. and Treas.; John Schrock, Sgt. at Arms; Janet Mumaw, Reporter; and Carmen Estes, and Jack Snoddy, Student Council.

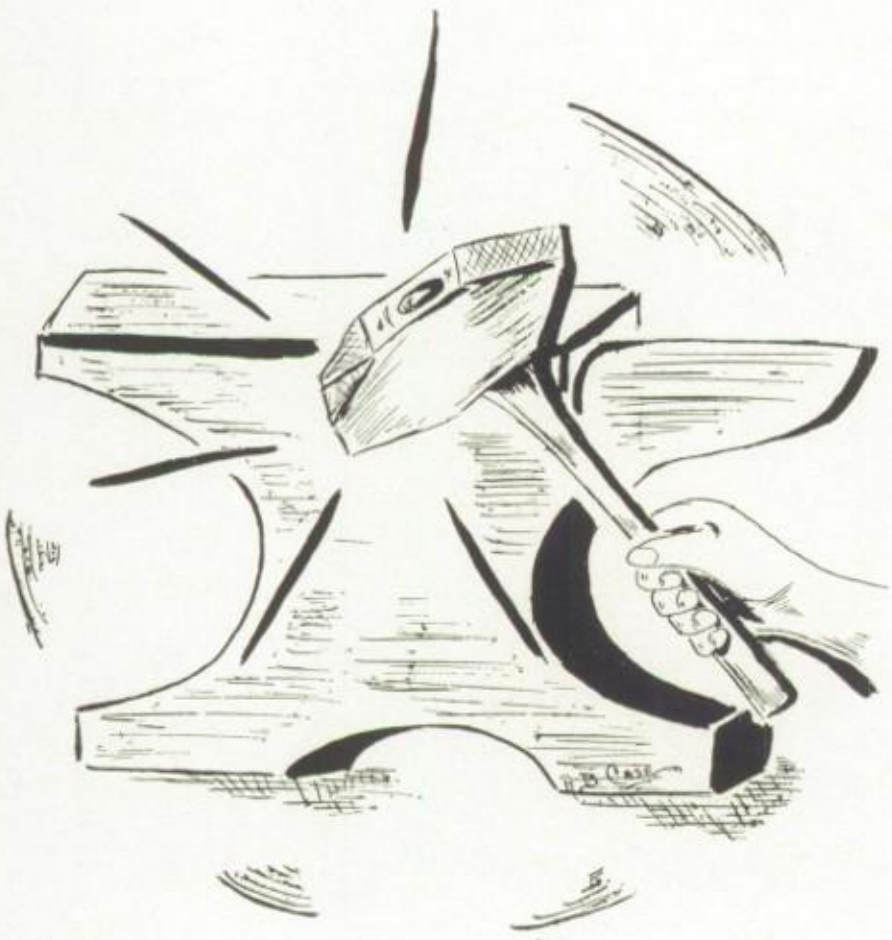
We could hardly wait for our first class party which was held in Gloria Perret's barn. A grand time was had by all. A party every month would suit us fine.

Christmas came, vacation passed before we knew it. Exams were long and hard. Girls were happy to be on the noon recreation athletic teams.

We worked very hard and we enjoyed doing it. What a wonderful surprise we had upon coming to school on March 12, when we found our basketball team won the basketball tournament. Congratulations, boys. An assembly was held to honor the boys and to present their trophy to the school.

The annual 8th grade trip was made June 5th to the ball game between the Cleveland Indians and the New York Yankees. This has been a happy year for us and we hope to do even better in the future.

The Sparks



As the blacksmith strikes
His anvil, sparks fly.
These are the activities
In Smithville High.

STUDENT COUNCIL

The Student Council is the governing body of the school, made up of the students themselves. It is a Council of twelve members consisting of the president, ten representatives and the faculty advisor. The President is elected by the student body as a whole and is generally a Senior. The ten representatives are a boy and girl from each class, and are elected by each individual class.

Mr. Berkey willingly and ably acts as the Faculty Advisor. It is thru this body that the student is given a voice in the government of the school. And it gives the students a feeling of responsibility in the affairs of the school.

The following officers were elected: The President by the student body and the Vice-President and Secretary by the Council themselves.

President ..... Tom Burkholder
Vice-President ..... Roger Johnson
Secretary ..... Irene Zimmerly

The student Council holds their meeting once a week. The first of the year is taken up in organizational work such as appointing the various committees, the ushers, the assistant editor and assistant business manager of the "Fabrica". Also the stage projection and sound crews for the year. Business meetings during the year are informal and deal with problems of discipline, student activity and any other problem of administration.

The Student Council this year sponsored The Annual Box Social and initiated a desk cleaning project. This project was launched by an assembly program given in which Johnny Messer-Upper was buried at a mock funeral. This was followed up by a general clean up and the appointment of a Student Council member for each room to maintain it properly throughout the year.

FIRST ROW: Mr. Berkey, Burkey, Burkholder, Zimmerly, Donaldson, Johnson.
SECOND ROW: Singer, Feusier, Hostetler, Estes, Snoddy.

NATIONAL HONOR SOCIETY

This is a chapter of the National Society, one of many chapters found in the nation. The qualifications for membership are established by the National Society, which states that members of the society, one must be selected from the Junior or Senior Class, and is based on scholarship, leadership, character, and service of the student. The member also must have an average grade of "B" or above. Membership may only include 15% of the Senior class and 10% of the Junior Class.

The officers who served this year were:

President ..... Tom Burkholder
Vice-President ..... Ray Aspinall
Secretary-Treasurer ..... Phyl Ramseyer
Mr. Portman ..... Faculty Advisor

The Society gave an assembly, at which the following Juniors were initiated: Mary Burkholder, Mary Hostetler, Martha Miller, Willy Meyer, Ruby Zimmerman and Irene Zimerly of the Senior Class. It also sponsored the guidance shelf in the school library, an exhibit in a showcase in the downstairs corridor, and determined the members of the different honor rolls.

You created the year, we have only tried to record it and make it live. If we have done that for you, we are satisfied.

We, the Yearbook Staff, wish to express our appreciation and gratitude to Mr. Berkey for his help in the publishing of this Annual. His aid and advice have contributed greatly toward making it a success.

All school papers fall into one classification or another: the scandal sheet, the propoganda page, the newest news, and on and on. Smithville High is proud to defy that assumption and announce that our Mosaic is like no other paper anywhere! It fits no category, follows no pattern other than its own incomparable one, and is not responsible for any coincidence with the news as reported and in actuality whatever.

Seriously, our Mosaic is like a small town newspaper. There are back page ads, news of the intramural games, the classes, music, and of course the controversies over this and that on the editorial page. We appreciate greatly the work the staff has done to edit our high school news. Their job gets little verbal praise but deserves the best.

SIXTH ROW: Caskey, M. Johnson, Zimmerman, P. Smucker, M. Burkholder, Donaldson, S. Burkholder, Zuercher, Richard, Ramseyer.

The Junior-Senior Chorus kept hard at work this year. The activities were numerous and varied.

The 60 members took part in the operetta "Tune In". They made that radio station ring with their singing.

Their voices were heard on an authentic radio station also, when they supplied music for the fifteen minute program over WWST given by our school.

Not all the work was light and gay. There was serious music also, as the Chrous presented the Christmas Cantata, "King of Kings".

The members were repaid for their services by the opportunity to attend an operetta in Akron on December ninth, when the Goodyear Theater presented "The Chocolate Soldier".

The chorus had the chance to show what it was worth by sending 20 voices to take part in the chorus festival at Doylestown.

The Junior-Senior Chorus did its part to keep the students singing their way thru the year.

FRESHMAN-SOPHOMORE CHORUS

Although the Freshmen-Sophomore Chorus functions as a secondary organization, it serves its purpose well by providing a type of musical activity for us. The chorus, under the leadership of Miss Aufrance, maintains a close relationship with the Junior-Senior Chorus, thus preparing the members for participation in that organization.

We combined with the Junior-Senior Chorus to give our Christmas Cantata "King of Kings", and also joined them in the operetta "Tune In". The Spring Show was the last musical program of the school year.

FIRST ROW: Hilligas, Gordon, Miller, Aspinall, Hartzler, Lonier, Musser, Feusier, D. Zimmerly, Berkey, Brant.

SECOND ROW: Airulla, Gresser, Baab, Becker, Bishop, Boreman, Odenkirk, Yates, Zimmerly, Ramsier, Wilson, Fike, Miss Aufrance.

FOURTH ROW: Bishop, Baderstcher, Stuckey, Buckwalter, Troyer, Hutchison.

FIFTH ROW: Hohenshil, Hair, Neely, Conrad, Bland, Singer, Shamp, Richard, Smucker.

BAND

It seems though one of Miss Aufrance's favorite sayings is, "Okay, band, I can wait as long as you can to get quiet."

The band really has worked hard though. A trip was made to Barberton to hear the Ohio Concert Band, which was very good. Here at home, they played for several P. T. A. meetings, the County Band Festival, and for most of the home basketball games. They played for the spring Varsity Show also.

Eighth period on Tuesday and Thursday is the time when the Smithville High School orchestra holds most of its rehearsals. True, there is no noise like the agonizing wail of a trumpet, the search of a violin for its voice, or the screech of a clarinet searching for a high note, but when placed together in their entire proportion, balance, and meter, they constitute a musical entity! It is to this end Miss Aufrance works unceasingly.

"Trumpets, you're rushing! Violins, make it clear. Listen to each other, can't you? Clarinets, you're flat . . . " and so it goes. Then Senior Class play, the annual operetta "Tune In", the spring rehearsals and concerts.

There it goes down the alley! I hardly dare look for fear—yes, there it goes again, another "gutter ball"! Oh well for my first attempt it's not bad.

This was a pretty good idea for our first Home Ec. meeting. A picnic in the Home Ec. room and the bowling. Let's see, what else did we do?

October? Halloween! The Halloween party for our boy friends was quite successful. Decorations?—We had floating skeletons. A fortune teller and folk games rounded out the evening.

December? Our yearly candle light dinner, candle trees as favors and Santa Claus. How's that for yule tide cheer?

February? Of course, Heart Sister Week with surprises for all and at the end, a Valentine Party.

April? Mother-Daughter Banquet with a garden theme and darling hoes and spades as favors for all.

That looks like a pretty good year of activities. Now we'll look forward to another full year!

SPEECH

PUBLIC SPEAKING IS THE THING!

The Speech Club elected officers one day in May, 1950. These were chosen:

President	Bill Miller
Vice President	Alice Schrock
Secretary	Martha Miller
Treasurer	Irene Zimmerly
Reporter	Bernice Lytle

Our calendar of events began in the early fall when those interested took part in the Prince of Peace contest. Seven of these participants won bronze medals and the right to be in the county contest. Also at the time of falling leaves, debaters began their research work.

As the new year dawned, we also began to prepare ourselves for the events and contest which the year would bring. Finally on the eighth day of February the first of our dreams had been realized to have come true. The debate team had won the county championship and the right to participate in the state contest. February 17 dawned as another great day on our horizon for it was on that day that seven of our group won high honors in the individual events contest.

We couldn't stop with this so on March 31, our One Act Play received a 'superior' and the right also to compete at our State Capitol.

Now, at the close of these eventful months, we look back over our year of learning as a speech group. Among our memories are the enjoyment we had together as a club and those moments of triumph when we realized some of our secret ambitions.

VARSITY BASKETBALL TEAM

The sportsmanship and strong personality of each high school is shown in its athletic events. Providing excitement and thrills for the less ambitious spectators, the participants themselves find the deeper satisfaction that comes from close teamwork.

SECOND ROW: Bishop, Wilson, Bupp, Bland, Shamp.

The Reserves are one group that seems to get the due amount of publicity and attention. They are faithfully out at practice and really dig in when they scrimmage with the Varsity team. They provide a reserve that the coach can depend on when he needs a man to fill a Varsity berth. There is also a certain attitude about these fellows that cannot even be equaled by their betters—the attitude of willingness to work hard for the position they hope to fill in the future. What they do at practice decides whether they sit it out on the bench during the Varsity game or take their try at victory.

We know that from this group will come the boys to fill future Varsity positions, so the old "derbies" come off plenty fast to a swell bunch of promising players—the Reserves!

BASEBALL TEAM

Basball is an important sport at Smithville High School and interest is especially high this year as the Smithies look forward to the season. Spring baseball must always contend with the weather man but somehow a schedule of games is always played.

The Smithies have won four tournament Championships in the past, the last one in 1948, and they feel they have an excellent chance again this year. There are nine returning lettermen this year, four Seniors and five Juniors. Dave Bishop, Bill Bland, Clyde Murphy and Bob Dilyard are the Senior lettermen while Roger Johnson, Don Dravenstott, Ronnie Fike, Frank Carney and Dick Marthey are the Juniors.

SECOND ROW: Mr. Berkey, Stuckey, Fike, Marthy, Carney, Wilson.
THIRD ROW: Bishop, Conrad, F. Bland, Singer.

F. F. A. BASKETBALL TEAM

FIRST ROW: Yoder, Rohr, Blough, Lonier Franks, Mr. Watkins.

SECOND ROW: Steiner, Buckwalter, Kinney, Woods, Mast, Johnson, Conrad.

One of the most important activities of the year for FFA Chapters are the basketball games. The boys who play on the team are not always the best players, but they play more for fun and good sportsmanship. We also have some good rival games, for instance Wooster, Dalton and Sterling. Our coach is usually one of the boys from our chapter. This year Roger Johnson was coach and he did a fine job. Our season usually runs for about a four month period. We think our chapter has done a pretty good job for its self the past year.

FIRST ROW: Kauffman, Snoddy, Singer, Ramseyer, Schrock, Musser.
SECOND ROW: Mr. Krohe, Smucker, Bellman, Zimmerly, Stucky, Mani.
THIRD ROW: Hohenshil, Krabil, Wanio, Byler, Falb.

When Mr. Krohe issued a call for basketball practice 16 boys reported. Five of these boys were carry overs from last year. They were Roger Ramseyer, Jack Snoddy, Gene Kaufman, Ronnie Singer, and John Schrock. This year the team composed of Roger, Jack, Gene, Ronnie, John, and Jim Musser. Mr. Krohe filled out the remaining two teams with other members. This method was used throughout the season in order to give all a chance to make a try away from home. For the home games everybody dressed.

A total of twelve games were played of which two were lost to Apple Creek.

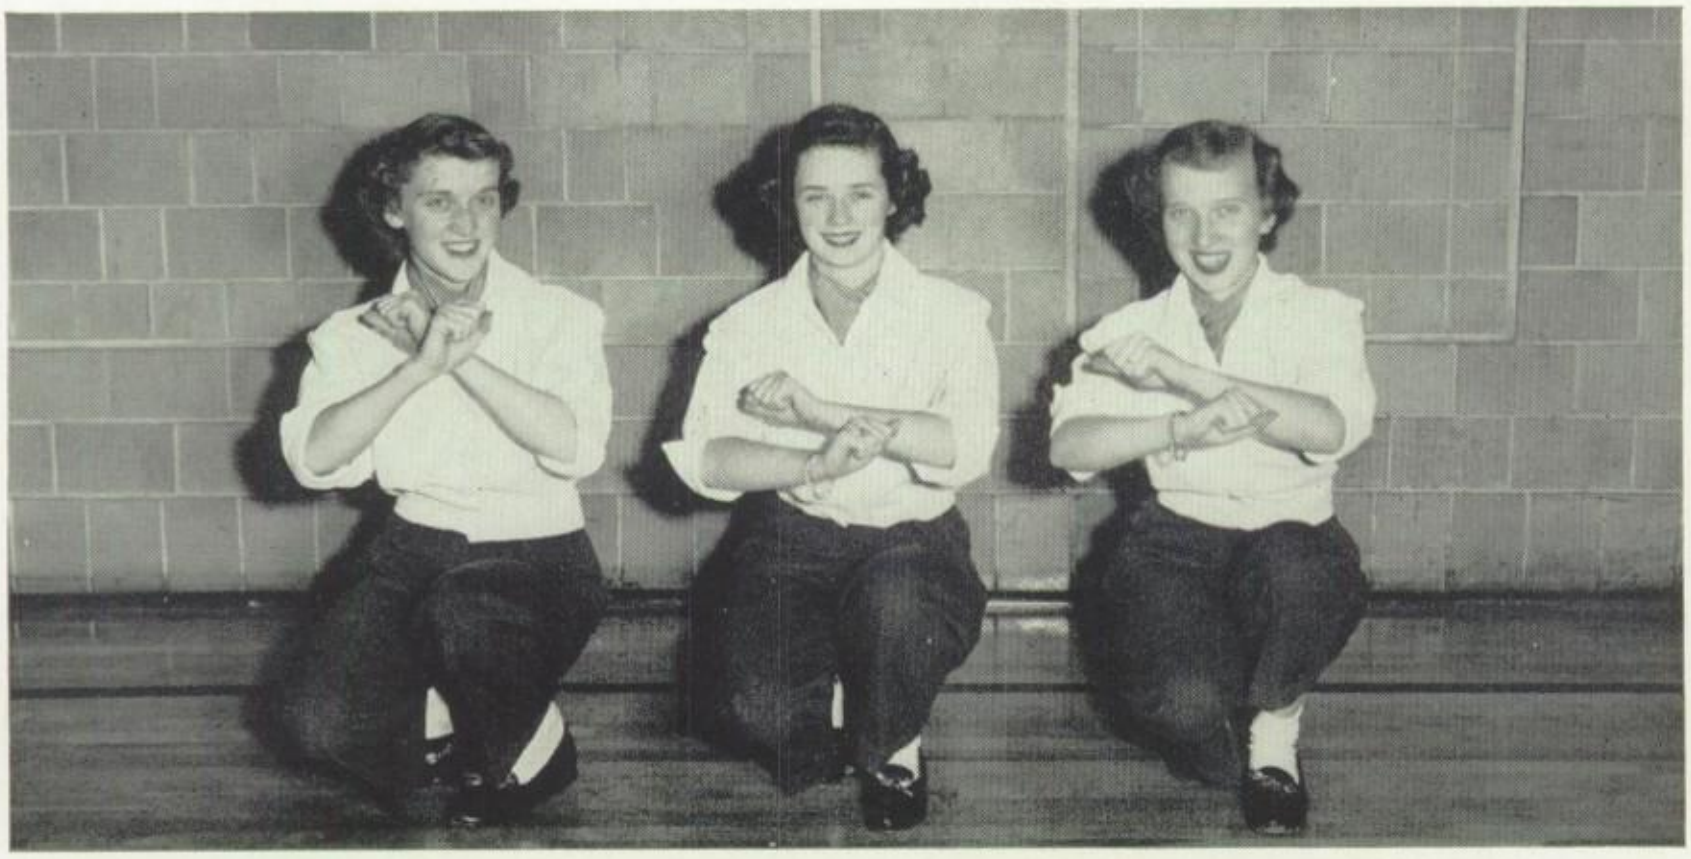
VARSITY CHEERLEADERS

YEA GREEN, YEA WHITE, YEA TEAM, LET'S FIGHT

This and many other cheers sent us more than once for a throat lozenge or gargle.



M. Burkholder, Donaldson, S. Burkholder

The greater the yell from the bleachers, the higher the mercury rises in the veins of our team. A rousing cheer at the crucial moment is the tonic for rally and fresh determination to win that "ole ball game".

The Smithie cheerleaders for the past year were Ruth Donaldson, Mary and Sara Burkholder. These three girls are all members of the Junior Class and this was their third year of cheering. The girls did a swell job of bringing our team to victory by their friendliness, interest in the game, and the good school spirit they helped to create. Thanks for a job well done.

Who make our annual grow.
